Pressed Jerky	

Thursday is butcher day. A provincial meat inspector will inspect all the different types of livestock we slaughter. Livestock can be dropped off the night before the day they are booked in (i.e. Wed between 4-7 pm) or the morning of the Thursday between 7-9 am. All beef must have a CCIA RFID button tag in their ear when they are dropped off. As you drive around the west side of our building you will notice a drive through drop off at the back. Beef are hung for a minimum of 18 days and a carcass number is kept with all of your meat so all ground beef & sausage is from your animal. We automatically cut sirloin tip and cross rib roasts and tenderloin, T-bone, sirloin and rib steaks. If you would like it differently, please let us know.

Note: As of Jan. 1, 2009, a \$20 beef hide surcharge is in effect until further notice.
